

BRING YOUR OWN DIGITAL TECHNOLOGY AGREEMENT 2022

I agree with my child bringing their own digital device to school for use in their learning.

I understand (please tick each statement):

- Devices brought to school are my child's responsibility and the insurance for the device is my responsibility. Devices will be clearly labelled with the child's name.
- A locked cupboard will be available for my child to place their device in when not in use. If my child does not use this facility then the school holds no responsibility for any loss or damage, which might occur.
- The device will be brought to school fully charged each day for use during learning times ONLY. (NB Not before/after school, at break times or on the bus.)
- Devices brought to school are for the use of my child. Children may be required to share their screens but not their devices with other learners.
- Students will use cloud-based applications, including Google Apps for Education.
- Rules, including the digital citizenship policies, governing the use of any school-owned digital device will apply to student-owned devices, while they are at school, including adherence to the Copyright act. Failure to abide by the rules will result in the loss of the BYOT privilege.
